Minutes of past meetings	N/A		COL Enzel	Pending	<ul style="list-style-type: none"> Pending
PCMN Database	19 Jul 01		COL Enzel Rob Hengel	Info	<ul style="list-style-type: none"> Colonel Enzel continues to reiterate the importance of the Patient Database, the ongoing problems receiving MTFs experience coordinating patient care due to the lack of medical information, tracking costs, lost duty time during patient movements and NMA. LCDR Whittaker-Hill is currently experiencing problems with the Patient Database. USNH has 17 records with departing and returning entry dates, but continue to be reported as delinquent records in the patient database. Mr. Hengel will query the list of names and make corrections as needed.
Pacific Case Mgt System	19 Jul 01		COL Enzel	Discussion	<ul style="list-style-type: none"> ICD-9, CPT and MEPRS codes are not being used to update clinical information in the Patient Database. During the month of July there were 16 incomplete records in the database from several referring MTFs. PACAF has hired a private contractor to study and analyze the A/E system within the Pacific Region. The objective is to improve the quality of service for both patients and DOD beneficiaries. The WESTPAC conference registration forms were sent out to all MTF Commanders and case managers on 21 July 01. All registration forms should be submitted no later than 15 Aug 01. TRACE2S has replaced DMRIS and is now the primary system used to process patients flying on the A/E system. A/E clerks have experienced technical problems running TRACE2S, the software and patient entries.
Next Meeting	19 Jul 01		COL Enzel	Info	<ul style="list-style-type: none"> The next call will be 6 Sep 2001. Minutes of this meeting will be posted on the TPLA webpage as soon as they are completed. If you have questions/problems contact COL Enzel/Rob Hengel via phone or email. Be safe!
